CAMILLE SCHLICK | PHOTOGRAPHER

ZANZIBAR - PARIS

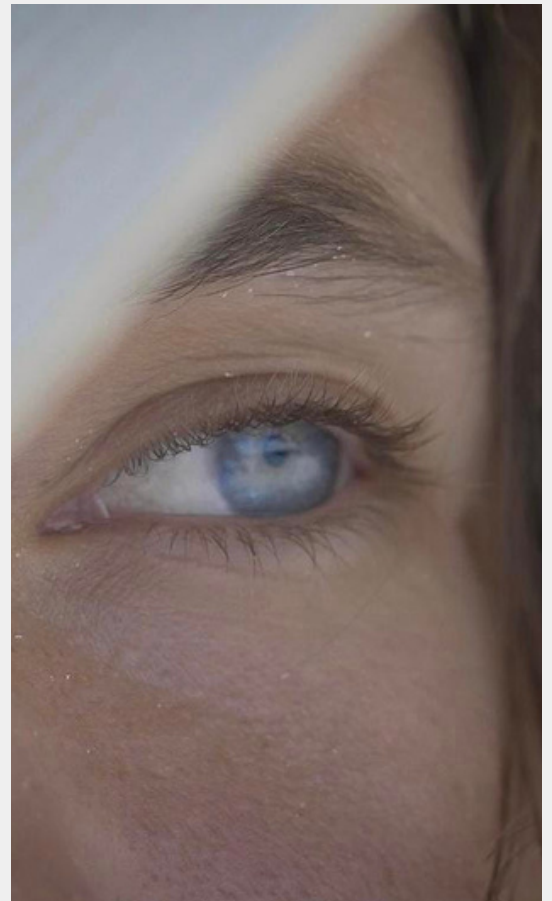

# Camille Schlick

My approach to photography is to capture the personality and essence of each property through artistic, natural lighting and composition choices. Mastering shadows, movement, and emotions take a big place in my photography work.

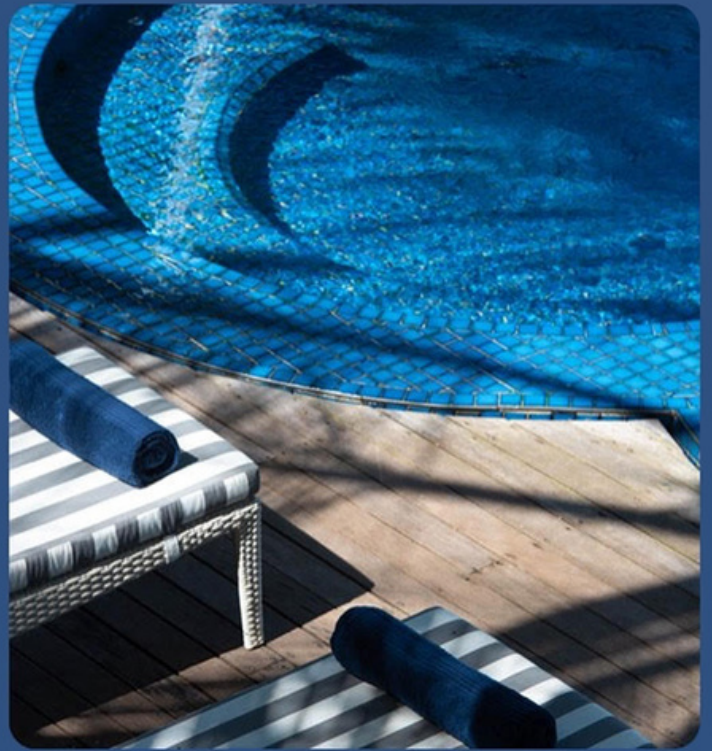

With my great experience in hotel marketing management, I have also gained a deep understanding of all the hotel features and standards, as well the importance of story telling.

A vertical photograph showing the silhouette of a woman standing against a bright, orange and yellow sunset sky. She is holding a camera up to her eye, ready to take a picture. The foreground is dark, suggesting a landscape or a body of water.

**Capturing Beauty  
in every detail.**
